

ELEVATE

ENVIRONMENTAL CONSULTANTS INC.

ENVIRONMENTAL COST MANAGEMENT AND SUPPORT FOR REDEVELOPMENT

OUR SERVICES

Regulatory agency coordination: (e.g., RWQCB, USEPA, DEH, DTSC) and redevelopment strategy planning for recognized environmental conditions (RECs)

Pre-design and pre-development environmental investigation strategy support, to maximize utility and minimize project risk and cost

Establishment of environmental design and construction procedures, including soil and groundwater handling, vapor intrusion controls, and asbestos/NOA monitoring and management

Construction project management of specialized activities such as soil off-haul and groundwater dewatering

Contractor GMP review for environmental inclusions and exclusions

CEQA and EIR guidance and compliance support

Environmental liability management support

OUR BUSINESS

With expertise in public health, engineering, and hydrogeology, we provide support in strategically planning for and managing the cost of the redevelopment of properties with legacies of environmental contamination.
